AuditPlus™

# Reimagine Audits with Data-Driven Intelligence

"HHS-OIG uncovered **$7.13B in expected recoveries** in 2024—largely driven by audits and investigations."[1]

OVERVIEW

Audits are essential to payment integrity, but outdated processes often lead to inefficiencies, delays, and missed recoveries. Health plans need intelligent, scalable audit tools that ensure compliance and drive meaningful results.

AuditPlus™ by Healthcare Fraud Shield modernizes audit management across retrospective and concurrent reviews. From identifying high-risk claims to streamlining medical record retrieval, AuditPlus™ equips teams to manage the full audit lifecycle with precision, speed, and simplicity.

STREAMLINE THE HARDEST PARTS OF AUDITING

AuditPlus™ combines AI-driven targeting with practical tools like Statistically Valid Random Sampling (SVRS) and Medical Record Retrieval to enhance audit accuracy and defensibility. It supports secure, flexible methods for collecting records—whether through your preferred vendor or in-house process—and centralizes all audit activity in one streamlined platform. From audit selection and documentation intake to provider correspondence and resolution, everything happens in one place, helping your team work smarter and faster.

AuditPlus™ helps you scale audits, improve compliance, and recover more—all with less manual effort.

KEY BENEFITS

- **Centralizes audit operations** across concurrent and retrospective reviews
- **Generates SVRS** to support regulatory and compliance standards
- **Retrieves and tracks** medical records seamlessly with integrated tools
- **Prioritizes audits** using AI-driven scoring and lead selection
- **Automates** intake, documentation, and rebuttal workflows
- **Supports** secure, scalable audit management for any team
- **Integrates** with CaseShield®, PostShield®, QueryShield®, and RiskAdjustment™

CLIENT VALUE EXAMPLES

Challenge: Audit samples fail to meet regulatory scrutiny

Solution: AuditPlus™ SVRS delivers defensible, statistically valid audit samples tailored to audit type and program standards

Challenge: Delays in receiving provider documentation stall audits

Solution: AuditPlus™ leverages medical record retrieval workflows to streamline record collection and improve audit timelines
