# QueryShield®

Your All-Purpose Reporting Powerhouse

"Self-service reporting ensures that healthcare institutions **comply with stringent healthcare regulations and standards.**"[1]

OVERVIEW

Manual report requests and delayed data pulls can bottleneck productivity. QueryShield™ eliminates the wait by putting real-time, ad-hoc reporting capabilities directly in the hands of users. Designed for flexibility and ease of use, QueryShield™ helps teams answer complex questions, fulfill regulatory reporting requirements, and maintain audit readiness without relying on IT.

BUILT FOR SPEED. DESIGNED FOR COMPLIANCE.

QueryShield™ makes self-service analytics simple for any team member. Users can pull custom reports on-demand across the HCFSPlatform™, exploring case, audit, and claim activity, member data, provider histories, or pharmacy trends all with just a few clicks. From compliance officers to SIU investigators, everyone can access the insights they need to ensure accuracy, support oversight, and stay ahead of regulatory demands.

QueryShield™ empowers your team with fast, flexible insights so they can move from data to action without delay.

KEY BENEFITS

- **Enables ad-hoc queries** across the entire HCFSPlatform™
- **Supports compliance** and regulatory reporting requirements
- **Delivers real-time insights** without IT intervention
- **Centralizes access** to case, audit, claim, member, pharmacy, and provider data
- **Simplifies audit preparation** and documentation
- **Enhances case research** and fraud investigations

CLIENT VALUE EXAMPLES

Challenge: Teams need rapid answers for audits and reporting

Solution: QueryShield™ enables on-demand data pulls that meet documentation and regulatory timelines

Challenge: Analysts depend on IT to run custom queries

Solution: QueryShield™ allows users to create, refine, and export reports independently with easy-to-use filters and search logic

Challenge: Data for investigations and compliance lives in multiple systems

Solution: QueryShield™ unifies access across the HCFSPlatform™ for complete reporting and case visibility
