

CaseShield™

REPORTING, TRACKING & COMMUNICATION CASE MANAGEMENT

CaseShield™

Our unique case management system, which can be integrated with our other products or utilized on a standalone basis, assists in automating many of the manual tasks associated with the typical healthcare fraud case workflow. The reporting, tracking and communication hub of the FWAShield™ platform is fully assimilated to work cohesively with both PreShield™ and PostShield™.

CaseShield is designed to give management and staff an organized and easy to navigate focal point, keeping track of current and historical case files, documentation storage, document template generation, case linking to external resources, medical record storage and tracking, extensive reporting capability, financial tracking in accordance with the National Health Care Anti-Fraud Association financial reporting standards, state and federal regulatory reporting requirements and more.

Healthcare Fraud Shield understands that not all insurers are the same and the landscape is constantly changing, therefore we've created a fully customizable system to change with your shifting needs. Our clients are our number one priority, and we make certain you are not alone in your efforts. At Healthcare Fraud Shield, all clients experience our first-rate customer service with fast turnaround time, and an associate who is available to you at all times to assist. CaseShield has:

- User-friendly dashboards for investigators providing easier workflow management and efficiency
- User-friendly dashboards for managers allowing transparency into staff efficiency and caseload
- Built-in reports to assist with internal as well as regulatory case-related reporting
